

Table 2-3. Trends in percentage of institutions with inadequate amount of space by field and institution control: 1988, 1990, 1992, and 1994

Field	Public				Private			1994
	1988	1990	1992	1994	1988	1990	1992	
Engineering .....	51	51	52	47	50	10	28	25
Physical sciences .....	44	47	43	43	40	29	26	36
Environmental sciences .....	50	46	39	34	23	29	17	31
Mathematics .....	27	43	31	32	21	21	17	22
Computer sciences .....	45	49	31	38	50	40	24	33
Agricultural sciences .....	39	45	38	29	20	14	12	46
Biological sciences:								
In universities and colleges .....	48	54	43	46	42	25	28	30
In medical schools .....	56	61	37	39	31	40	34	32
Medical sciences:								
In universities and colleges .....	41	50	39	38	36	31	27	39
In medical schools .....	55	61	42	48	33	56	42	40
Psychology .....	32	31	36	33	31	34	28	29
Social sciences .....	37	37	32	32	38	34	23	25

NOTES: All 1994 data are national estimates derived from samples representing the 565 largest research-performing U.S. universities and colleges; all previous years' data (1988, 1990, 1992) represent 525 institutions.

Because of rounding, components may not add to totals.

Data from 1988, 1990, and 1992 have been adjusted to match the analytic procedure used to calculate 1994 figures.
